

Mounting instruction for Showcase#1

The following text and illustration describes, the screws locations in the wall relative to one another.

Instructions

- 1) You will need 8 screws for Showcase#1. Screws are not included.
- 2) Find an appropriate place / wall for your Showcase#1.
- 3) The X's indicates the placement of the screws. Draw small marks on the wall according to the X's on the illustration. Use a spirit level for the best result.
- 4) Screw the screws into the wall - use of raw plugs recommended. Don't screw the screws all the way in. Remember to fasten the rails according to the illustration.
- 5) Place Showcase#1 on the screws and the rails on the wall.
- 6) Fasten the screws properly.

Remark:

Only 2 rails included. No rails needed for top and bottom mounting.
