

Mounting instruction for Ledge

The following text and illustration describes, the screws locations in the wall relative to one another.

Instructions

- 1) You will need 2 screws for Ledge. Screws are not included.
- 2) Find an appropriate place / wall for your Ledge.
- 3) The X's indicates the placement of the screws. Draw small marks on the wall according to the X's on the illustration. Use a spirit level for the best result.
- 4) Screw the screws into the wall - use of raw plugs recommended. Don't screw the screws all the way in.
- 5) Place Ledge on the screws on the wall.
- 6) Fasten the screws properly.
